

November 8, 2015

Dear Parents,

Michigan Sports Concussion Law requires schools to provide parents and students with information on concussion awareness. Research is continually providing new information on the treatment of concussions and it is important that parents, coaches and staff stay up to date on this issue. We are required to have a signed acknowledgement in each student's file showing that you received this information. While the information that we have sent to you addresses competitive athletes, we are required to **also** have acknowledgements for every student who participates in PE class. We are asking you to complete one form for you entire family and we will make copies to put in the files for each of your children. Thank you for helping us with this paperwork.

Please complete the form below and return it to your K-5 student's teacher or the school office for 6-12. We will appreciate it if these are **returned by Nov. 20, 2015.**

Thank you for your prompt attention,

Mr. Tom Kapanka, CCS Administrator
