## WHAT MAKES US DIFFERENT?

Established in 1730 and rooted in Sheffield, England, Burgon & Ball has become synonymous with excellence in crafting exceptional gardening, agricultural and giftware essentials. With a legacy built on both superior quality and outstanding customer service, our products continue to adorn shelves in garden centers and fine retailers across Europe and other countries around the world.

Now, as part of the esteemed Venanpri Tools family of brands, we're poised to usher in a new era of growth and innovation in the United States and Canada.

### Partnerships

At Burgon & Ball, we work in collaboration with our partners, The Royal Horticultural Society and Sophie Conran, to develop exciting new products that solve real problems experienced by gardeners. Top quality materials and stylish designs are intrinsic characteristics of all our products, creating the most stylish and desirable gardening tools and gifts around.

### Quality

Our experienced and highly qualified engineers and craftspeople ensure the very best tool quality – which, in the case of our market-leading, RHS-endorsed stainless range, is supported with a lifetime guarantee. Our wood products, bearing the Forest Stewardship Council FSC® label, are sourced from forests that have been audited to confirm they are managed according to FSC's rigorous social and environmental standards.

**In this catalog you will find an extensive collection of the finest quality products, designed to make your time gardening, inside and outside the home, more enjoyable.**

Beginning with the design of our first sheep shear in the 1730's, our new product ideas continuously lead us into the development of clever tools and gorgeous gifts that brighten your life each time you use them. We hope you enjoy your Burgon & Ball tools, as much as we did designing them.

# WELCOME

As the **UK's leading supplier of premium garden tools**, we've been working hard to develop new products. We now have a tool solution to appeal to every type of gardener.

Endorsed by

Our market-leading range beloved by keen and amateur gardeners alike, is a comprehensive collection that looks good and always does the job. Endorsed by the UK's leading gardening charity, recognised around the world, the minimal returns rate is testament to the quality of the tools.

- **Comprehensive and market-leading range**
- **Endorsed by the world-renowned Royal Horticultural Society, the RHS has nearly 625,000 members and over 30 million visitors to [rhs.org.uk](https://rhs.org.uk) each year.**

SOPHIE CONRAN

# PRODUCT GUARANTEES

At Burgon & Ball, we stand by the quality of our tools. Very occasionally, there may be structural failings caused by errors in manufacturing or defects in materials that can cause a product to fail. We will make an effort to either repair or replace any defective tool with one that is similar. If, for any reason, this is not possible, we may choose to satisfy your claim by substituting a different product. We may very occasionally ask for the item to be returned to us for quality control purposes.

Under this guarantee, we cannot cover normal wear, lost or stripped parts, or any product which has been modified. We also cannot cover product damage due to misuse. i.e. using a tool in a manner for which it was not designed, or where the tool has not been adequately cared for e.g. Keeping a tool outside rather than in a dry environment. This guarantee also excludes cosmetic changes in appearance due to wear and tear.

### Making warranty claims outside the U.S.

The guarantees outlined here apply specifically to products purchased in the United States.

If you purchased your product outside of the U.S., your local distributor's standard product warranty will apply.

Outside the U.S., warranty claims can be made by returning the tool to where you bought it within the relevant time frame, along with its packaging and original proof of purchase. We reserves the right to ask Dealers and Distributors to send in product photo and contact information for a warranty claim. In some cases, a Return Merchandise Authorization (RMA) number may be required for product returns.

# HERITAGE MILESTONES

## 1730

The business begins manufacturing agricultural shears in Sheffield, an area known since the 14th century for its skills in knives and steel.

## 1920

Production of garden shears and equipment has now outstripped that of sheep shears. The 1922 catalogue shows over 96 designs of hoe alone!

## 2010

Burgon & Ball starts its successful collaboration with Sophie Conran, creating award-winning giftware ranges which continue to be hugely popular.

## 2018

Burgon & Ball joins the Venanpri global family of the finest heritage tool brands.

## 1865

James Ball patents a process for the manufacture of solid steel sheep shears. At its peak, annual production of these shears will top 300,000 pairs.

## 1974

A new forge and a new despatch warehouse are completed at La Plata Works to allow more modern production systems.

## 2012

Burgon & Ball stainless tools are officially endorsed by the Royal Horticultural Society - Its horticultural expertise is held in the highest regard

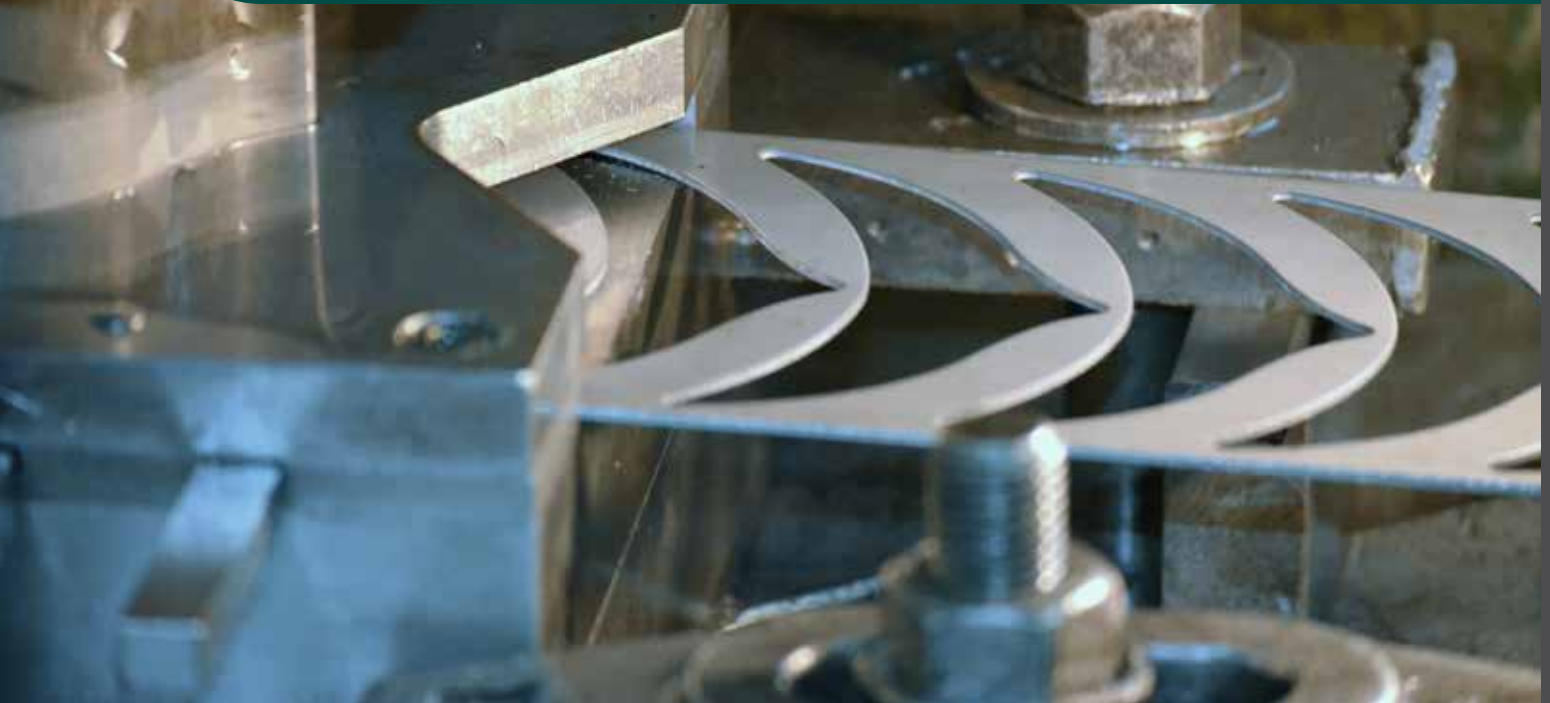

## 2024/25

The expanded USA launch of Burgon & Ball's garden products, includes the Royal Horticultural endorsed tools and Sophie Conran gifts.

# STEEL MAKING EXPERTISE

## CENTURIES OF STEELMAKING KNOW-HOW

We've been working with steel for a long time, so we know how to get the best out of it and how to create tools of the highest quality. Our tools are made with seven principles in mind.

### **GRADE OF STEEL: A FINE BALANCE**

Adding carbon to steel gives strength, adding chromium brings rust resistance. But it's a trade-off; our steel cannot be high carbon and high chromium, so we make sure we get the right steel composition for each part of the tool.

### **THICKNESS: LIGHT BUT STRONG**

We look at how the tools will be used. A spade or axe needs a thicker gauge of steel than a knife, which can be of much thinner steel. We reduce the weight wherever possible to give tools that are a pleasure to use.

### **TEMPERATURE: TURNING UP THE HEAT**

We carefully control the heat treatment and tempering of our steel to give exactly the right hardness for each tool's job. Too hard and the metal may snap or chip; not hard enough and it will bend or lose its edge. We test our tools using the Rockwell scale to measure hardness by firing a diamond penetrator into the steel and calculating the indentation.

### **DESIGN: A KEY CONSIDERATION**

Our beautiful tools feature curves in all the right places. But the shaping is about more than style; it either adds extra strength, or reduces weight by allowing us to use thinner steel while maintaining strength.

### **MANUFACTURING PROCESS: GOING THE EXTRA MILE**

Our manufacturing processes create the most durable tools available. We make sure our welds are carried out expertly, to create joints that are actually stronger than the surrounding steel. And the tines on our large forks are hot rolled, a process which aligns the grain structure of the metal to give outstanding strength and bend resistance. Rolled tines are very unusual in stainless steel tool production – the norm is to simply cut the tines to length, weld together and grind the ends to a point.

### **FINISHING: THE FINAL TOUCH**

Any roughness on the surface can make even stainless steel corrode; moisture can collect in the tiny abrasions, creating a chemical reaction with the air. We make sure our tools are perfectly ground and polished to prevent this.

### **CONSISTENCY: TRIED, TESTED, TRUSTED**

But we don't stop there. Rigorous testing gives complete peace of mind; every batch of tools is tested against the British Standard, which determines the weight the tools must be able to withstand without permanent deformation.

**And if ever a batch were to fail... we wouldn't sell it.**

# Burgon & Ball

Endorsed by

**Since its formation in 1804, the Royal Horticultural Society has grown into the UK's leading gardening charity, working to encourage and improve the science, art and practice of horticulture and gardening. In 1858 Prince Albert became the RHS President and in 1861 the Society received its Royal Charter.**

Across five RHS gardens more than 3 million visitors each year enjoy over 34,000 different cultivated plants. Events such as the world famous RHS Chelsea Flower Show, other national shows, community work, and partnerships such as Britain in Bloom, all spread the shared joy of gardening to wide-reaching audiences.

The combination of Burgon & Ball's manufacturing experience and the RHS's horticultural expertise lend to our tools being held in the highest regard and hold a unique place in the hearts of British gardeners.

Endorsed by

# STAINLESS TOOLS

## 82% STRONGER\*

Burgon & Ball RHS-endorsed digging spades and forks are tested at **over 100kg** (British Standard - 55kg) without any permanent deformation.

\*Than the British standard.

## HARDENED STEEL

Made using hardened steel that will hold its edge/sharpness and form.

## LIFETIME GUARANTEE

All RHS-endorsed stainless steel tools are supported by a **lifetime\* guarantee** against manufacturing defects.

\*Qualified as 75 years for legal compliance.

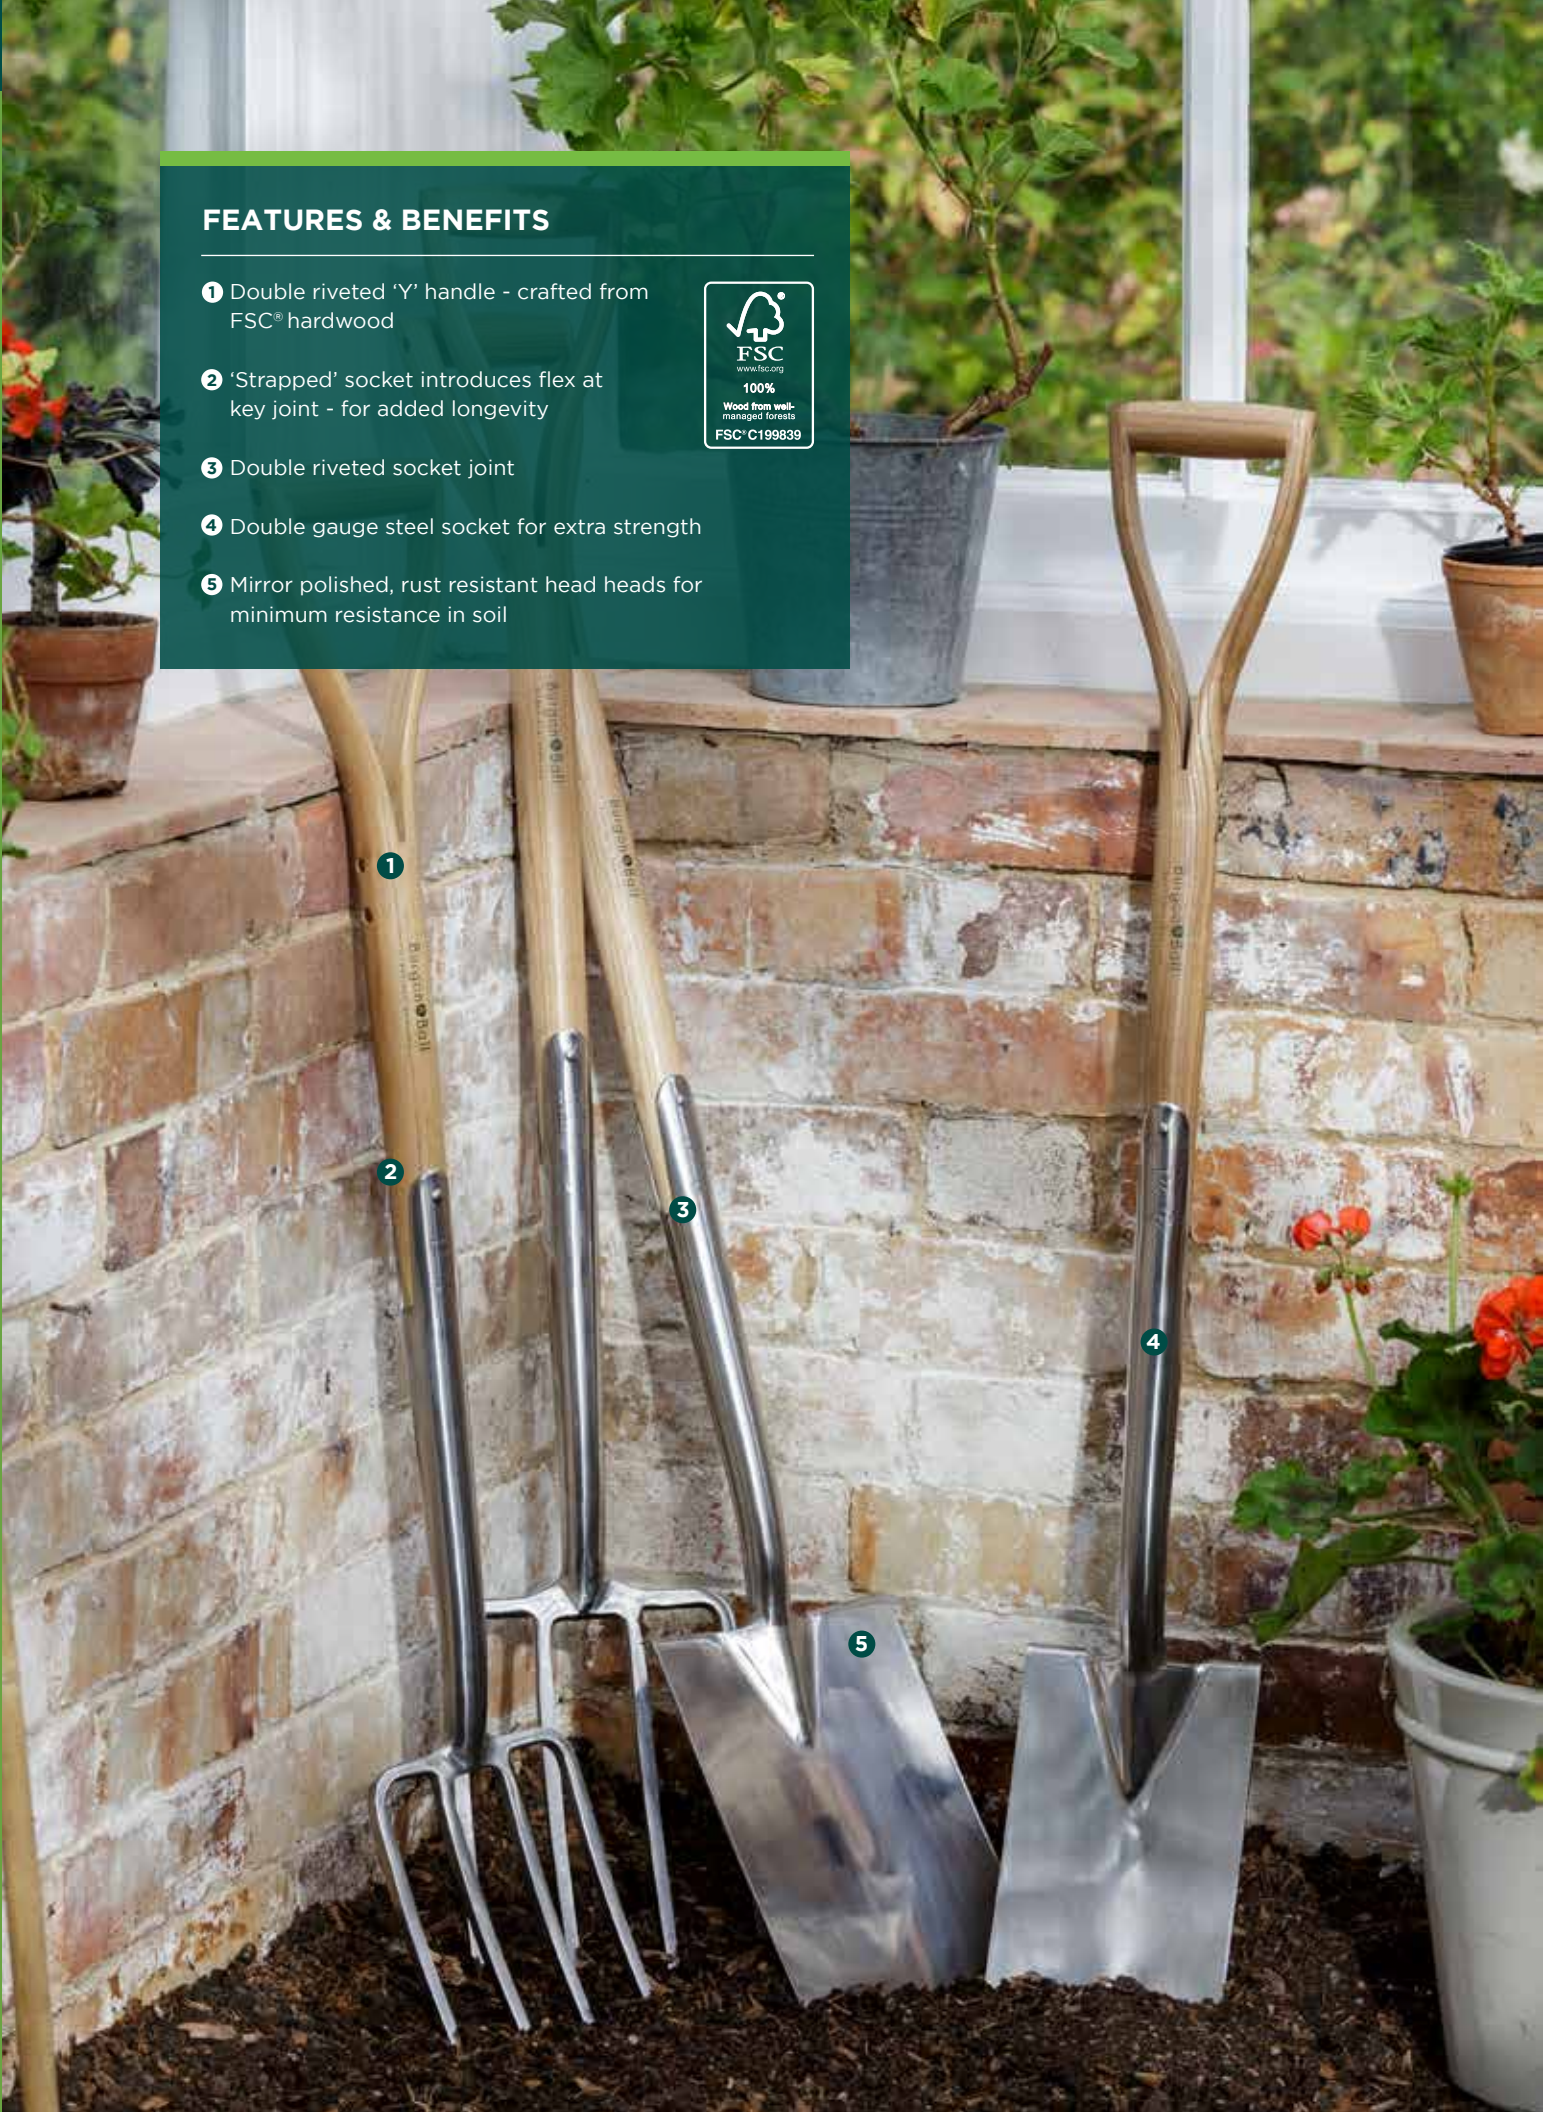

## RESPONSIBLY SOURCED WOOD

All Burgon & Ball stainless tools have FSC® certified wooden handles.

## FEATURES & BENEFITS

- ❶ Double riveted 'Y' handle - crafted from FSC® hardwood
- ❷ 'Strapped' socket introduces flex at key joint - for added longevity

# KNEELO® KNEELER & KNEE PADS

Burgon & Ball  
kneelo

Since the launch of Kneelo® in 2010, these garden kneelers and knee pads from Burgon & Ball have been a consistent top seller.

We believe our Kneelo® range is the most comfortable range of memory foam kneelers and knee pads on the market. Together with improved construction, the range also has an eye-catching new look, including fresh colours in an embossed pattern. New, stronger branding reassures shoppers that they are getting Burgon & Ball quality.

## FEATURES & BENEFITS

- **Improved comfort**  
30% more foam gives even more cushioning for prolonged kneeling
- **Quick dry**  
with a nylon outer cover
- **Hardwearing**  
with a durable neoprene cover
- **Unique look**  
With texture tipped as a key trend, Kneelo® is the only kneeler range with textured pattern options

# INDOOR GARDENING

Still a hot trend in interiors, houseplants have universal appeal. They're loved by gardeners and find a place in every on-trend home.

The demand for indoor greenery shows no signs of slowing – and every plant needs a beautiful pot to show it off to perfection.

# Burgon & Ball INDOOR POTS

## 2.4 Gallon/9 Litre Watering Can

GTW/W9DG

Weight **3.7lb/1.7Kg** Case Quantity **2**

- 2.4 gallon/9 litre watering can in sturdy galvanized steel with a tough powder coated finish.
- Removable, screw-on rose for fine or rapid watering

GTW/W9DG

5 019360 202813

## 1.3 Gallon/5 Litre Watering Can

GTW/W5DG

Weight **1.3lb/0.6Kg** Case Quantity **2**

- Sturdy galvanized steel with a tough powder coated finish. The single-handed design eliminates back twisting, while gravity helps the handle slip gently through the fingers - the emptier the can gets, the more it tips. Removable, screw-on rose for fine or rapid watering. Metal Burgon & Ball seal on the top of the can.
